

RESULTS - Silviculture System - Announcement

FESBC new funding source code implementation and objective code

To all RESULTS users:

Please note that a new funding source code has been added to RESULTS to facilitate the reporting under the Forest Enhancement Society of British Columbia (FESBC) - All activities reported to RESULTS under FESBC must use the funding source code FES

Also, all fire hazard abatement activities are required to supply an objective code. The HAZ code is now available for all based activities. Further guidance on reporting requirement will be provided by FESBC in the near future. In the meantime, please follow the requirement as specified under the RESULTS Information Submission Specification for Government Funded Activities RISS-gf.

If you have any questions or concerns, please contact the NRS Service Desk

Thank you
